

BookableWorld

THE CONNECTED STAY

FOR LARGE HOTELS & GROUPS

One platform across your whole portfolio.

Centralised control, group-wide loyalty and enterprise analytics
— with a guest experience and partner network that scale with
you.

Rooms

Dining

Experiences

Loyalty

Croatian compliance

A single platform for hotels, their guests, and the local partners that make a stay memorable.

Everything from check-in to check-out, connected

BookableWorld links your guests, your team and the best local partners in one system that updates in real time — so nothing falls through the cracks and every stay runs smoothly. Whatever your size, you get the whole platform.

For your guests

- Search and book one or several rooms in a single reservation, with the exact stay total shown before they confirm
- In-room dining sent to a chosen room; experiences and restaurants booked against real, live availability
- A scannable digital room key and a tappable timeline of the whole trip
- Day-by-day invoices, optional split into several invoices, payment by card or bank transfer
- Loyalty points earned and redeemed at checkout, tipping, and English / Croatian / German with multi-currency

Front desk & operations

- Phone-in reservations, check-in / check-out, and room, rate and promotion management
- Order room service or book experiences, restaurants and parking on a guest's behalf
- A live kitchen display with delivery tracking and guest messaging
- Per-invoice billing and payments, plus HUB-3A bank-transfer barcodes for Croatian guests
- Reservation notes and comments, luggage-helper and tip tracking, and arrival times

Management & insight

- Rooms, room types, adaptive rates, promotions, VAT and menus configured in one place
- Staff and user management, a daily reservation chart, and general charges such as parking
- Multi-property control with per-hotel time zones, currencies and banking details
- Loyalty programs with tiers and benefits
- BookableWorld Analytics and Loyalty Program Reporting

A local partner network

- Experience and restaurant partners sign up themselves and publish real-time availability
- Bookings reach them with full guest details, and they message guests directly
- Partners connect to your hotel with a single secure, one-time link — no integration project
- Transportation partners coming soon

Built for Croatia

- e-Visitor guest-registration data collected in the guest's profile
- Tourist-tax exemption and reduction categories handled per guest
- HUB-3A (HRVHUB30) 2D payment barcodes for bank-transfer payments
- Fully localised in Croatian, English and German

Standardise operations, scale the experience

Across many rooms and many properties, consistency and insight matter. BookableWorld gives you central control and the data to act on — without locking guests into a rigid experience.

Centralised multi-property control

Manage every hotel from one SuperAdmin: per-property rooms, rates, currencies, time zones, banking and staff — with consistent configuration across the portfolio.

Loyalty across the group

Run cross-hotel programs with tiers and benefits; guests earn and redeem points everywhere, driving direct bookings and retention across properties.

Enterprise analytics & reporting

BookableWorld Analytics breaks reservations down by day, guest demographics and spend by category; Loyalty Program Reporting shows members, tiers and value at a glance.

Scale the experience & partner network

A digital key, multilingual app and large local partner ecosystem — onboarded with secure one-time links — deliver a premium, brand-consistent stay at any volume.

Consolidate at scale, retain guests, optimise spend

Standardising on one platform removes duplicated systems and overhead across the portfolio.

- ✓ **Retire legacy systems portfolio-wide** — one platform replaces a patchwork of property-level tools and integrations.
- ✓ **Lower central overhead** — manage configuration, banking, currencies and staff for every hotel from one place.
- ✓ **Drive retention** — group-wide loyalty increases repeat and direct bookings, reducing channel costs.
- ✓ **Optimise with data** — analytics on demand, spend and demographics inform pricing and partnerships.
- ✓ **Ancillary revenue at scale** — a large partner network adds experience and dining commission across all properties.
- ✓ **Standardised Croatian compliance** — e-Visitor, tourist tax and HUB-3A handled identically at every property.

Roll out BookableWorld across your group

We will plan a multi-property deployment, connect your partner network, and stand up group-wide loyalty and analytics.
