

BookableWorld

THE CONNECTED STAY

FOR SMALL & BOUTIQUE HOTELS

Run your whole property from one simple app.

Replace the spreadsheets, the separate booking and payment tools and the manual paperwork with a single system your small team will actually enjoy using.

Rooms

Dining

Experiences

Loyalty

Croatian compliance

A single platform for hotels, their guests, and the local partners that make a stay memorable.

Everything from check-in to check-out, connected

BookableWorld links your guests, your team and the best local partners in one system that updates in real time — so nothing falls through the cracks and every stay runs smoothly. Whatever your size, you get the whole platform.

For your guests

- Search and book one or several rooms in a single reservation, with the exact stay total shown before they confirm
- In-room dining sent to a chosen room; experiences and restaurants booked against real, live availability
- A scannable digital room key and a tappable timeline of the whole trip
- Day-by-day invoices, optional split into several invoices, payment by card or bank transfer
- Loyalty points earned and redeemed at checkout, tipping, and English / Croatian / German with multi-currency

Front desk & operations

- Phone-in reservations, check-in / check-out, and room, rate and promotion management
- Order room service or book experiences, restaurants and parking on a guest's behalf
- A live kitchen display with delivery tracking and guest messaging
- Per-invoice billing and payments, plus HUB-3A bank-transfer barcodes for Croatian guests
- Reservation notes and comments, luggage-helper and tip tracking, and arrival times

Management & insight

- Rooms, room types, adaptive rates, promotions, VAT and menus configured in one place
- Staff and user management, a daily reservation chart, and general charges such as parking
- Multi-property control with per-hotel time zones, currencies and banking details
- Loyalty programs with tiers and benefits
- BookableWorld Analytics and Loyalty Program Reporting

A local partner network

- Experience and restaurant partners sign up themselves and publish real-time availability
- Bookings reach them with full guest details, and they message guests directly
- Partners connect to your hotel with a single secure, one-time link — no integration project
- Transportation partners coming soon

Built for Croatia

- e-Visitor guest-registration data collected in the guest's profile
- Tourist-tax exemption and reduction categories handled per guest
- HUB-3A (HRVHUB30) 2D payment barcodes for bank-transfer payments
- Fully localised in Croatian, English and German

Big-hotel capability, built for a small team

You wear every hat. BookableWorld takes the busywork off your desk so you can focus on your guests — with no IT department and no expensive integrations.

One tool instead of five

Bookings, check-in, room service, payments, invoicing, loyalty and guest messaging all live in one place. There is nothing to stitch together and nothing extra to subscribe to.

Croatian admin, handled for you

e-Visitor guest data, tourist-tax categories and HUB-3A bank-transfer barcodes are built in — so registration and payment paperwork stops eating your evenings.

Let guests serve themselves

Mobile booking, in-room ordering, a digital key and self-booked experiences mean fewer interruptions and longer unattended hours without losing service.

Earn from every stay

Guests discover partner experiences and restaurants you curate and you earn commission — while loyalty points quietly bring them back next season.

5 → 1

systems in one

one guest app

Built-in

e-Visitor + HUB-3A

Lower costs, more revenue, fewer headaches

BookableWorld pays for itself by replacing several tools and the hours spent on manual work.

- ✓ **One subscription, not five** — retire separate booking, payment, messaging and loyalty tools.
- ✓ **Fewer front-desk hours** — self-service booking, in-room ordering and a digital key cover quiet periods.
- ✓ **No more manual compliance** — e-Visitor data and tourist-tax handling are captured automatically; HUB-3A barcodes make bank-transfer payment effortless.
- ✓ **New ancillary revenue** — commission on partner experiences and restaurants, with no extra effort from you.
- ✓ **No integration bills** — partners connect themselves with a one-time link; nothing to build or maintain.
- ✓ **Repeat business** — loyalty points and a great app turn one-time guests into regulars.

See BookableWorld at your hotel

We will set up your property, connect your first local partners, and show your team how everything works — in your language.
